

The Yun Family's Ninth Child is an Imp! Chapter 849

"Little Sister Jiu, are you alright?! Why did Old Master Yun call for Di Beiming just now?" Although Xue Wuji acts recklessly, he was very respectful of Yun Xiaotian. If Yun Xiaotian did not call for him, he would not dare to enter the study room to find out what was happening.

Yun Chujiu paused for a moment, after thinking for a while, she said honestly, "There was a Black Bead caught us off guard since it sucked my blood. I ended up taking it with me, so there's no big deal. However, from the looks of it, that old b*stard Tian Dao seems to be looking for trouble, so I plan to find an empty space to avoid dragging the Yun mansion into this and turning it into ruins."

"Miss Jiu, Longping Mountain is about 300 li away from Spirit Radiance City. There aren't many people there, so why don't we go there?" An Feng suggested.

"Longping Mountain? Isn't that the place where the people who hired the League of Assassins to kill me said they would deliver the goods?" Yun Chujiu asked.

"Yes, that's the place. Back then, when I brought people there, I found that although the mountains were endless, there were very few demonic beasts. No cultivators passed by there. Even if there was a big commotion there, no innocent people would be hurt," An Feng answered..

"Okay! Let's go there!"

Three hundred Li might be a long distance for ordinary people, but it was only an hour's journey for cultivators. The five of them sped up and rushed toward Longping Mountain.

Behind the five of them, a large patch of dark clouds tailed them closely. It was different from the dark clouds when Yun Chujiu first advanced some time ago. This time, the dark clouds were full of momentum, and it seemed like they stop at nothing until they killed Yun Chujiu.

Yun Chujiu cursed in her heart. Could it be that those old dark clouds were all taken care of by her, so where did that old bastard Tian Dao get this new Wu Yun force?

‘Humph! Even if another group comes along, I’ll take care of them! I’m not the Thunder Sect’s master for nothing!’

An hour later, the five of them arrived at Longping Mountain.

It was just as An Feng had said. Although the mountains here were undulating and there were many spiritual plants, there were very few demonic beasts, let alone humans.

Yun Chujiu nodded. This place was quite suitable. Even if there were fighting here for a few hours, no innocents would be harmed.

“Prince Charming, brother Wu Ji, stay away from me so that I won’t accidentally hurt you. This time, I think that Old Bastard Tian Dao is serious about coming after me!” Yun Chujiu said to Di Beiming and Xue Wuji as she looked up at the thick clouds.

Di Beiming and Xue Wuji gave Yun Chujiu a few instructions. An Feng and Secret Agent Huahua retreated a few thousand feet away. They did not have Yun Chujiu’s abnormal talent, so it was safer to stay away.

Yun Chujiu wrapped her hair with a handkerchief to prevent herself from being struck bald again, then, she said to the three occupiers in her Dantian, “Strange Grass! Little Mirror! Glass ball! The three of you should contribute something. If I don’t make it out alive, none of you will either!”

The three squatters in her Dantian looked at each other. Each of their names was weirder than the other. Their host’s naming skills were terrible to the extreme.

The three trembled in response to Yun Chujiu's words. Yun Chujiu thought to herself, 'That glass ball agreed so readily. I wonder if it will be helpful later?'

"Master, I haven't absorbed the power of lightning for a long time. Let me out! I'll help you absorb a few bolts," Little Black Bird said with his spiritual sense.

Yun Chujiu thought for a moment. It was true that Little Black Bird had not come out for a long time and was struck by lightning. It was time to let it enjoy itself for a bit.

The Flaming Three Tailed Fox King looked at Little Black Bird with a dumbfounded expression. "Boss, can you still absorb lightning?"

Little Black Bird had a smug look as he replied, "Although I can't compare to our abnormal master, I can still absorb dozens of heavenly lightning bolts!"
