

## The Yun Family's Ninth Child is an Imp! Chapter 851

Although the Wu Yun in the sky was a little shocked, it did not take it to heart. If a dozen lightning bolts could not kill you, then just keep up the attack! It did not believe that it could not even kill an ugly bird!

Boom! Boom! Boom!

Another dozen lightning bolts flew toward Little Black Bird.

Little Black Bird swallowed them all, then burped and said, "Weak! Too weak! You're like the weakest members of the Heavenly Thunder World!"

The Wu Yun in the sky was furious. 'Strike it, strike this arrogant ugly bird to death!'

Just as Wu Yun was about to launch another wave of fierce attacks, he heard Little Black Bird say, "Stupid thunderclouds, I'm already full. See you later!"

The Wu Yun in the sky watched as Little Black Bird disappeared on the spot. What was all the effort it put in earlier for then?! It was so depressed that it wanted to vomit blood.

'That bird's debt must be repaid!'

'Target that little girl!'

'Wait, something isn't right! F\*ck! It seems like... Maybe we came here to strike that little girl?! Why was that stupid bird leading us astray?!'

Boom! Boom! Boom!

More than ten bolts of lightning struck towards Yun Chujiu. Yun Chujiu sat cross-legged on the ground and did not dodge at all. She was eager to be struck by the lightning!

The power of the Lightning in her Dantian was completely devoured by the Black Bead. Strange Grass and the Great Void Mirror were so angry that they wanted to evict the Black Bead. It was Yun Chujiu who put an end to the conflict when she said that she would replenish it immediately.

After more than ten bolts of Heavenly Lightning were absorbed into Yun Chujiu's Dantian, the Black Bead was like a ravenous ghost that had not eaten for centuries. It completely devoured the absorbed lightning in seconds. Strange Grass and the Great Void Mirror were so angry that they were twitching. They wanted nothing more than to slap this glutton to death.

Yun Chujiu lazily raised her head and looked at the dark clouds in the sky. "Little Black Bird is right. You are the weakest of the Heavenly Thunder World. You are too weak! You are not new here, are you? Tsk tsk, you might as well stop calling it heavenly lightning and call it vegetable lightning!"

Wu Yun was furious.

'Damn it! This little girl was even more hateful than that ugly bird! Kill her!'

Dozens of heavenly lightning bolts struck towards Yun Chujiu. Yun Chujiu was still lazy and did not move. She allowed the lightning bolts to strike her body. After the heavenly lightning bolts merged into her Dantian, Strange Grass and the Great Void Mirror were afraid that they would be eaten up by the Black Bead so the two of them quickly divided up the spoils.

Yun Chujiu looked inside her Dantian and saw the Black Bead jumping anxiously. She thought to herself, "Damn it! I wish I could anger you to death! Who told you to suck my blood!"

The Wu Yun in the sky was on the verge of collapse! "Why did we encounter two weirdos on our first mission to the Azure Mystic Continent today?!"

“Forget about the bird. We only struck a few dozen lightning bolts at it, but this little girl! We threw nearly a hundred lightning bolts. How is she not dead?!”

Just as Wu Yun was in a daze, it heard the little girl sigh. “Sigh, the heavenly lightning is getting weaker and weaker with each generation! Do you know that old bastard Tian Dao is so weak?”

Wu Yun was completely enraged!

It was fine if you scolded us, but you actually scolded Tian Dao. That was unforgivable! Suddenly, thicker bolts of heavenly lightning struck continuously at Yun Chujiu.

Yun Chujiu nodded. “Very good. That’s the way to go! Keep it up!”

Wu Yun was so angry that it was seen to be twitching in the sky, ‘I’ve been around for long enough! I don’t believe that you’re not completely immune to lightning! I’ll strike you continuously for two hours. See if that doesn’t kill you!’

Two hours later, Yun Chujiu was still sitting there leisurely. Occasionally, she would mock Wu Yun.

Wu Yun was completely dumbfounded!

Its mind was filled with doubt as it asked itself ‘Who am I? Where am I? What am I doing?’
