

The Yun Family's Ninth Child is an Imp! Chapter 857

After Yun Chujiu learned more about the situation from them, she walked to the entrance of the West Valley and prepared herself.

Di Beiming and Xue Wuji put on their hidden spirit rings and tried to enter the valley. As expected, they were barred from entry. They could only watch as Yun Chujiu slowly walked in herself.

A white light flashed and Yun Chujiu disappeared from the entrance. Everyone understood then that she had successfully entered the West Valley.

Di Beiming and Xue Wuji had mixed feelings. They were both happy that Yun Chujiu managed to get in, but they were also worried about her safety.

At this moment, they could not do anything except wait outside.

After a flash of white light, Yun Chujiu found herself in a valley. The valley was huge and she could not see where the horizon ended.

Yun Chujiu casually swept her eyes over it and was surprised to find that the spiritual herbs that casually grew on both sides were high-grade yellow rank spiritual herbs. Although they were not considered high-grade spiritual herbs, they were still considered pretty useful. No wonder even though they knew that it might be a trap, most people still flocked to the valley. It was true that people would die for money and animals would die for food.

After Yun Chujiu was done rambling, she continued to walk forward. She was teleported in randomly so she did not know where those people were trapped. She could only choose one direction to search.

Yun Chujiu thought for a moment and decided to search along the direction of the stream. Many spiritual herbs liked to grow near sources of water, so the cultivators who came in would travel along the stream to pick more spiritual herbs.

Not long after Yun Chujiu reached the stream, a group of sixth-level Purple Eyed Windblade Wolves surrounded her, drooling non-stop.

Yun Chujiu frowned. Sixth Level? The intelligence of a sixth-level demon beast was not fully activated yet. It would be great if she could meet an eighth-level demon beast. Perhaps she could get some useful information.

“Get lost! I don’t have time to deal with you!” Yun Chujiu casually threw a bolt of lightning at the grass beside her. She didn’t want to waste her time on the wolves. She just wanted to scare them away.

The Purple Eyed Windblade Wolves were shocked. Seeing the deep scorch marks on the grass, they ran away with their tails between their legs. They could not afford to offend this fiend. It was better to change their prey.

Yun Chujiu encountered a few groups of demon beasts along the way. Most of them were at the fifth and sixth level. Yun Chujiu used lightning to scare them away to avoid wasting time.

Two days passed, but she had not managed to find any clues.

She had not encountered any high-level demonic beasts, nor had she found any traces of people. Whether it was footprints or some miscellaneous items, there was nothing. It was as if no one had come here before.

Yun Chujiu even specially observed some places where the spiritual herbs grew. There were no traces of people picking them.

Yun Chujiu was puzzled. Could it be that she went in the wrong direction? Even if that were the case, with the number of people that had traveled to the valley, she should have found something by then. What was going on?

Another two days passed, but Yun Chujiu still had not found anything. Other than low-level demonic beasts and spirit herbs, there had not seemed to be anything else there.

Yun Chujiu frowned. Could it be that the array formation had been tampered with? The place where she was teleported to was not the same as the ones used by the others?

F*ck!! If that were the case, then things would be bad. Forget about saving people, if this were a one-way formation, she would be trapped here!

It was no use worrying about that now. She had to think of a solution. Most likely, her guess was right. This was not the place where Fifth Sister and the others had come in. She had to think of a way out.

However, they had to wait for the array to eject someone before they could completely exit the valley. How could she get out with that limitation in place?
