

## The Yun Family's Ninth Child is an Imp! Chapter 877

Xue Wuji was revitalized. After giving the girls a wicked smile, he eagerly went to look for Yun Chujiu.

The girls were instantly mesmerized by Xue Wuji's smile. They felt as if their little hearts were about to jump out of their chests. They looked at Xue Wuji's back with infatuation, almost turning into statues that famously awaited their husband's return from sea.

Yun Chujiu was telling Di Beiming about what happened in the West Valley. She was beamed with joy throughout the retelling. In front of Di Beiming, she would unconsciously become an innocent and romantic little girl. Although her brain would occasionally stop working, this kind of full-hearted trust, the feeling of having someone to rely on, softened people's hearts.

When Xue Wuji saw the invisible pink bubble between the two of them, half of his confidence dissipated. Wuuuuu, his heart was about to break. Why did he feel like an outsider and the two of them were like a match made in heaven?

Secret Agent Huahua looked at her young master's stupid look and could not bear to keep looking at him. She knew that it was unbearable, but she still bravely went forward like a moth to a flame. Sigh! She did not expect that the young master was also a sucker for love. It was unexpected!

Xue Wuji's attention gradually shifted to Yun Chujiu's story. The bitterness in his heart slowly turned into admiration. Little Sister Jiu was amazing. She managed to save these people and beasts all by herself.

The next morning, Yun Chujiu adjusted her spiritual power to the first level of the spirit emperor realm. Then, she walked into the enchantment of the East Valley with Di Beiming and the others.

As soon as the five of them landed on the ground, they found themselves amidst a huge sea of flowers. There were all kinds of flowers in an assortment of colors. Spirit butterflies and spirit bees were shuttling between the flowers. It was a beautiful scene.

If an ordinary girl saw such a scene, she would marvel at the beauty, however, the first thing Yun Chujiu said was, "Ah! There are spirit bees! There must be a beehive nearby! The quality of the honey here must be very good. It must be fragrant and sweet."

The corners of Di Beiming and the other three's eyes twitched. This girl never changes!

"Little Sister Jiu, if we follow these spirit bees, we will find the beehive. When the time comes, I will help you get some honey to eat." Xue Wuji immediately came over to flatter her.

"Well, since we don't have any clues, let's follow the spirit bees first!" Yun Chujiu nodded. She would never admit that she just wanted to go after some of their honey.

The five of them soon had a bad feeling. They found that the spirit bees had been repeatedly circling in the sea of flowers. Even though they stopped tracking the spirit bees later, they found that they had ended up in the same area, and they had fallen into a maze.

At that time, the sea of flowers was no longer attractive in the eyes of the group. It was just a prison with a beautiful exterior.

"Little Sister Jiu, what should we do? Although these flowers are colorful, each area is the same as before. We have been circling around the same area without realizing it." Xue Wuji frowned.

Among the five people, only Yun Chujiu knew a little about arrays. The other four people knew nothing on the subject. Naturally, they all turned their eyes to Yun Chujiu for guidance.

Yun Chujiu touched her nose. "I only know two tried and tested methods. One is to find the right reference point to pinpoint where the barrier is. The other is to create a spiritual energy fluctuation and break the enchantment by force."

“Reference points? These flowers are all the same, so they can’t be used as a reference. The sky is covered with thick clouds, and the sun can’t be seen. These spiritual bees and butterflies keep flying along the same path, so they can’t be used either.” Xue Wuji said dejectedly.

Di Beiming raised his eyebrows. “If there’s none, then we’ll create one!”

Xue Wuji pursed his lips. “That’s easy for you to say. How? Can you create a sun or a moon?”
