

The Yun Family's Ninth Child is an Imp! Chapter 884

An Feng was unable to speak due to the “mask” being too heavy, so he gave Yun Chujiu a thumbs up, indicating that the effect was very good.

Seeing this, Yun Chujiu quickly gave one each to Secret Agent Huahua, Di Beiming, and Xue Wuji. After the three of them put it on, they felt that it functioned well and expressed that the mask kept out the flower's fragrance.

Yun Chujiu immediately turned narcissistic. “Sigh! What can I do about myself? Why am I so smart?! I even have to admire myself!”

The corners of Di Beiming and the other three's eyes twitched. They ignored her and began to eradicate the Infernal Mirage Flowers.

Yun Chujiu did not stay idle either. She first used a rolling pin to wake up the three Mighty Elephants and the Golden Tortoise before letting them into her spirit beast bag. Then, she continued to make more “masks”.

This “mask” had a time-limited effect. The charcoal and awakening pills inside had to be replaced regularly, otherwise, the mask would lose its effectiveness.

Thus, she made quite a number of filling materials, using linen to sew dozens of replacement “masks”. Only then did she help Di Beiming and the others get rid of the Infernal Mirage Flowers.

While Yun Chujiu was happily being struck by lightning, the Strange Grass shyly expressed its desire to eat those flowers. At that point, Yun Chujiu was already used to the unique tastes of what the Strange Grass wanted to consume. Moreover, earlier she had said that she would reward it, thus, she began to uproot several Infernal Mirage Flowers and stuffed them in her mouth.

“Master, I’m not affected by those Infernal Mirage Flowers. Let me out, and I will help you burn them all,” The Flaming Three Tailed Fox King said in the Spirit Beast Bag.

Yun Chujiu was stunned for a moment. Then, she realized that it made sense. Little Red had the innate ability to charm people, so it naturally had a strong ability to resist charm. Thus, she let him out to help.

When An Feng returned to change his “mask”, he was stunned to find that Yun Chujiu was stuffing flowers into her mouth one by one while the Flaming Three Tailed Fox King was using fireballs to burn the remaining flowers near Yun Chujiu.

An Feng put a palm to his face and looked at the two. He felt that he had suffered a critical hit of 10,000 points!

Yun Chujiu handed a new mask to An Feng. Then, she emptied the expired charcoal inside the old mask and refilled it with a fresh batch. This way, it could be used again.

The sea of flowers was very large. The five of them worked for an entire day, but they had not found any trapped cultivators or demon beasts. Moreover, they could not see the edge of the sea of flowers.

At night, the five of them activated an isolation array in a clearing and began to recuperate.

“Sigh, this sea of flowers is endless. I wonder if Elder Qu and the others can hold on until we find them.” Yun Chujiu sighed and said.

“Little Jiu, you don’t have to worry too much. Elder Qu and the others also have isolation array disks on them. If they react quickly and activated the isolation array disks in time, they should be able to hold on for some time. Besides, didn’t that Golden Tortoise say that the last time the demon beasts were attracted was half a month ago? I reckon that Elder Qu and the rest have not been trapped for that long.” Di Beiming consoled.

Yun Chujiu nodded. "I hope so. The people of the Godly Devil Hall are indeed powerful. This Infernal Mirage Flower field was not planted in a day or two. It seems like they had planned to do this all along! I don't believe that it grew naturally!"

Di Beiming frowned. "It seems like the Godly Devil Hall is much more powerful than we thought. What we discovered might only be the tip of the iceberg. Perhaps their tendrils have already extended to the Tian Yuan continent."

Xue Wuji also became serious. "That's right. I didn't take this bullshit Godly Devil Hall seriously at first. But now, it seems like they're not to be underestimated. The strength behind it is unfathomable. When we go back, I have to send people to investigate them."
