

The Yun Family's Ninth Child is an Imp! Chapter 90

Bai Morou's eyes lit up. "Grandfather, who sent you this letter?"

Bai Moyu also looked at Bai Peng with Hope. He hated Yun Chujiu to death now. If he wasn't afraid of that elder Sun, he would have brought people to kill Yun chujiu a long time ago. A good-for-nothing with no spiritual power, killing her was as easy as killing an ant.

"When I was young, I accidentally saved a person in the demonic beast forest. Hehe, speaking of which, it was also a coincidence. At that time, I saw a severely injured golden spotted red flame tiger. In a moment of greed, I took the risk to kill that tiger.

"I didn't expect to find a person not far from that tiger. At that time, I was hesitating whether I should kill him to steal the treasure. That person woke up, so I could only pretend to save him. After that person recovered from his injuries in our house, he left a scabbard, saying that he would definitely give him a great reward in the future.

So many years had passed, but there was still no news. I didn't expect that just yesterday, grandfather received a letter. That person was now an elder of the Linghua sect! Hahaha! The heavens are really helping me!"

Bai Morou exclaimed happily, "Ah! Grandfather! That's great! Do you want that person to help us kill Yun Chujiu?"

"No! "That person had a bad temper and was stubborn. Otherwise, he wouldn't have thought that I was his savior. "I will write a letter to that person. The two of you will bring the scabbard and letter to the Linghua faction." Bai Peng's eyes lit up.

Bai Morou was puzzled. "Grandfather, why are we going to the Linghua faction?"

Bai Moyu, on the other hand, understood a little. He asked tentatively, "Grandfather, are you planning to let us enter the Linghua sect to cultivate?"

Bai Peng nodded. "That's right! " "You guys go find that person first to obtain the qualifications for the entrance test. With your qualifications, it will definitely not be a problem for you guys to become servants. ". "After entering the Linghua sect, with that person's connections, entering the outer sect is just around the corner. "If the opportunity is right, it's not impossible to enter the inner sect!" "

Bai Morou frowned. "Grandfather, that Yun Chujiu's master is an elder, then isn't she an inner sect disciple? Then when my brother and I enter the Linghua sect, not to mention killing her, it's more likely that we'll be killed by her. "

"Mo Rou, don't forget, we have a huge backer in the Linghua sect. If Yun Chujiu dares to touch us, she's simply asking for trouble. " Bai Moyu was obviously much smarter than Bai Morou.

Bai Peng nodded his head in gratification. "That's right. Since that person thinks that grandfather is his savior, he must have taken good care of the two of you. However, that person is very straightforward. You must not give yourself away in front of him. Especially Mo Rou, you must listen to your brother! "

Bai Morou nodded her head. This was great. Ling Hua sect, AH. Su Yanran was already so arrogant after entering the drifting cloud sect. This time, she was much stronger than her! If she could find another senior brother with a good family background, then it would be even more perfect!

"Oh right, grandfather, who exactly is that person?" Bai Moyu was also very excited. He had thought that he would be trapped in ye city, but he had not expected that things would actually take a turn for the better.

"He is the Ling Hua sect's West Peak Elder, Xiao Panshi. After you enter the Ling Hua sect, don't be in a hurry to kill Yun Chujiu. First, you need to stabilize your footing before you take things slowly. Do you understand? "Take a long-term view. Yun chujiu is just a small pebble on your path of growth. When you guys become stronger, you can take care of her at any time. "

Bai Moyu and Bai Morou both nodded. At this moment, both of them were in a state of excitement. They felt like they were in a dream.

“You guys go back and prepare. We’ll set off in three days!” Bai Peng was also quite excited. As long as Mo Yu and Mo Rou entered the spirit flower sect, it was only a matter of time before our Bai family rose!
