

The Yun Family's Ninth Child is an Imp! Chapter 905

"Prince Charming, how is it? Is there any useful information?" Yun Chujiu asked anxiously.

"The useful information is limited. Su Yanran was the one who passed all the instructions to him. He was only in charge of implementing them. He had never met the master before and was only in charge of the area in the endless sea. After the silver-masked man died the last time, he was transferred here as a replacement," Di Beiming said with a frown, he had thought that they had caught a big fish, but he did not expect that it was just a lackey. The Godly Devil Hall was really careful in covering up their tracks.

"Is there any news about grandfather and the kidnapped commoners?"

"Senior Yun has been escorted by Su Yanran all this time. Right now, he is outside the Spirit Radiance Sect's mountain gate guarded by more than ten golden-masked men. Those commoners are trapped in the mountain behind the Heavenly Gates Sect being used as a blood source to support the evil formation."

Yun Chujiu thought for a moment and said, "If that's the case, we will split into two groups. Everyone from the Heavenly Gates Sect, you will lead a portion of your people to kill your way back to the Heavenly Gates Sect. Right now, the Heavenly Gates Sect is relatively empty, and those disciples may not have truly submitted to the Godly Devil Hall. They may have been coerced by Du Guyi and Su Yanran. You should try to reason with them and think of a way to turn those disciples against them and save those commoners. I'll bring the remaining people to the Spirit Radiance Sect."

Everyone nodded in agreement and split into two groups. One group headed to the Heavenly Gates Sect while the other group headed to the Spirit Radiance Sect.

When Yun Chujiu passed by the Demonic Beast Forest, she thought for a moment and decided that it would be best to bring along some help just in case. Thus, she used her spiritual sense to speak to the Strange Grass, "Strange Grass, summon those high-level demonic beasts for me. I'm going to make use of them."

The Strange Grass obediently did as she was told. The leaves curled up and emitted a scent that made the demonic beasts drool.

“Everyone, you guys go ahead first. I will go down and subdue some more demonic beasts.” Yun Chujiu shouted to the crowd through the porthole.

Those people were dumbfounded. What did she mean by subjugating some more demonic beasts?

Those demonic beasts from the Elixir Valley had followed us to attack the Godly Devil Hall because you had saved their lives. However, the Demonic Beasts in the Demonic Beast Forest were wild and hard to tame. They had no interaction with you, so why would they listen to you?

Moreover, the Demon Beast Forest was vast. How would you find those high-level demon beasts?! Even if you found eight or ten of them, what use would that be?!

However, since they had already made Yun Chujiu the commander, they could only do as they were told and continue to rush to the Spirit Radiance Sect at full speed.

A day later, they arrived in the sky above the Spirit Radiance Sect. The ground was full of dead bodies. The Spirit Radiance Sect’s main gate had already been broken through. Elder Xiao and the other’s hearts tightened. Could it be that Master Xuanyuan and the others were all dead?

At that moment, someone noticed that the Spirit Radiance Sect was shrouded in light and seemed to be engaged in an intense battle. Elder Xiao looked over and saw that it was in the direction of the Southern Jade Square.

Everyone hurriedly flew in the direction of the Southern Jade Square.

When they got close, Elder Xiao's heart relaxed. He saw that the entire Southern Jade Square was enveloped in a layer of light, and the people from the Spirit Radiance Sect inside had set up the Hexagonal Starlight Array.

Elder Xiao was a bit puzzled. Although the Hexagonal Starlight Array was a relatively powerful defensive array, it was not enough to withstand such a large-scale spiritual power attack from the Godly Devil Hall. What was going on?

Before they had time to think, everyone flew down from the Flying Spirit Tool. "You scoundrels, you were working with the enemy. Today is the day you die."

Su Yanran did not show any signs of panic when she saw everyone arrive. She said indifferently, "Where's Yun Chujiu?"

"Su Yanran, you're the last one who can ask about Little Ancestor Yun's whereabouts. Die!" Elder Qu saw that the Spirit Radiance Sect was almost in ruins. Ya Zi's eyes were filled with anger as he slapped his palm toward Su Yanran.
