

The Yun Family's Ninth Child is an Imp! Chapter 914

Su Yanran's face immediately turned ashen. That was impossible. She had sent fifteen golden-masked men to guard Yun Xiaotian. They all had spiritual power above the sixth layer of the Spirit Emperor realm, and they were not far from here. How could they be taken out?

Yun Chujiu laughed mockingly. "Su Yanran, you still don't admit that your brain isn't working. You only sent a few people to guard the hostages, and they aren't even in sight. Don't you think you're even dumber than a pig?"

"You! Did you send people to kidnap Yun Xiaotian?" Su Yanran's face was ashen. Yun Xiaotian was her trump card, but she had not expected Yun Chujiu to send people to save him.

"What now Su Yanran? Your trump card is already gone. Now it's time for us to fight to the death." Yun Chujiu said with a cold smile.

Only then did Su Yanran remember that the Young Master Di and Yun Chuling who had always been by Yun Chujiu's side had not appeared. Presumably, they were the ones who went to save him. No wonder when Yun Chujiu fought with Du Guyi previously, she could have won, yet, she just rambled on and on while fighting her. It turned out that she was trying to stall for time and divert her attention. She was really cunning.

"Humph! Yun Chujiu, although I don't have Yun Xiaotian as my trump card anymore, just you people alone are not our match. Moreover, we still have the people of the five cities in our hands. If you dare to make a move, I will give the order to kill those people!"

"Su Yanran, do you take me for a fool? Those people were captured by you to provide the blood source for the evil formation. How could they have a chance to live? Moreover, you are getting ahead of yourself. We don't only have the forces you see here. We also have many reinforcements elsewhere. Moreover, they are very powerful reinforcements."

Su Yanran sneered and said, “Yun Chujiu, there is a limit to your boasting. Almost all the high-level cultivators of the Azure Mystic Continent are here. What other reinforcements could you possibly have? Could it be the people at the spirit enhancement level?”

Yun Chujiu did not answer her. Instead, she said to the people of the Spirit Radiance Sect behind her, “You guys make some space. The bigger the better. I’m going to call for reinforcements.”

Some people knew that Yun Chujiu was going to release the demonic beasts, but others did not. They thought to themselves, why did she ask to make room for reinforcements? However, because of Yun Chujiu’s usual strange behavior, they all obediently moved away.

Yun Chujiu raised her hand, and high-level demon beasts began to appear in the empty space one after another. Immediately, the earth-shaking roars of the beasts resounded throughout the entire Spirit Radiance Sect, and they could even be heard within a radius of several hundred Li.

Those demon beasts, especially the demon beasts of the Elixir Valley, hated the people of the Godly Devil Hall to death, ‘F*ck, if it wasn’t for you guys, we would have been fine in the Elixir Valley. Would we have had to submit to this Little Devil? Would we have to leave our homes and follow her all the way to seek revenge on you guys? We have been starving for a few days. We are going to eat our fill using you as food!’

The demonic beasts had fierce looks in their eyes as they stared at the people from the Godly Devil Hall across from them.

When the people from the Godly Devil Hall saw so many high-level demonic beasts, they almost wet their pants in fear!

F*ck!

This Yun Chujiu was not human. How could she get so many demonic beasts, and they were all high-level ones? Why did these demonic beasts listen to her commands?! How was this possible?!

Su Yanran's heart suddenly sank. It was over! The situation was over!

If they only had those cultivators to contend with, the victory of the Godly Devil Hall would be assured. However, with so many high-level demonic beasts around, even if they doubled their manpower, they would still not be a match for them. The only thing they could do now was to retreat to the Heavenly Gates Sect first, and then find an opportunity to counterattack.
