

The Yun Family's Ninth Child is an Imp! Chapter 918

The demonic beasts in the Great Void Mystic Realm had become guinea pigs. Yun Chujiu had locked herself in the courtyard all day to fiddle with the pills and then test them on those low-level demonic beasts.

After those demonic beasts ate the pills that Yun Chujiu fiddled with, some of them grew an additional tail, some of them had three mouths, some of them had colorful fur, and the saddest one was an Earth-splitter Brown Bear. All of its fur had fallen off, from then on, it began to run around naked.

When the Yun siblings, Feng Ming, and the others came to visit Yun Chujiu, Yun Chujiu told them about her intention to concoct pills. At first, everyone was filled with anticipation and joy, but after seeing those demonic beasts that ate Yun Chujiu's pills, one by one, they fled at high speed!

Damn it! How was that a pill that could raise one's aptitude? Those were pills that could kill! They would rather cultivate steadily than eat those pills. They didn't want to become monsters.

Yun Chujiu was undeterred. Even though she had failed countless times, she still stayed in the courtyard and fiddled around.

Elder Qi was very interested in her experiments. Sometimes, he would come over to join in on the fun. That day, Elder Qi ran over excitedly. "Little Jiu, little Jiu, I found this. Quick, take a look!"

Although Yun Chujiu's identity as Little Ancestor Yun was confirmed, she felt that there was no point in putting on airs. Thus, he still let Elder Qi and the others call him Little Jiu. That way, both sides would be more at ease.

Yun Chujiu saw that Elder Qi had handed over a yellowed sheepskin scroll. When she opened it, it seemed to be a handwritten letter.

“Little Jiu, didn’t our Spirit Radiance Sect suffer a heavy blow previously? Although the library wasn’t attacked, the sect leader felt that since most of the grounds were being renovated, the library should be renovated as well. When a disciple was organizing the library, he found this handwritten letter under a bookshelf. It seemed to be used to pad the bookshelf.

“Little Jiu, look at this record of the Universal Essence Cleansing Pill. Is it similar to the medicinal pill you want to refine?”

When Yun Chujiu saw the record, she was ecstatic. After taking this Universal Essence Cleansing Pill, it could remove the impurities in a person’s spirit root. Although it could not reach the level of a heavenly spirit root, it could increase the purity of the spirit root to above eight stars.

Yun Chujiu was very puzzled. Why was such a good pill formula not passed down? She continued reading and saw that although the Universal Essence Cleansing Pill’s effect was heaven-defying, there were many restrictions. One had to have a body of Yuan Yang and Yuan Yin under the age of twenty-five, and their spiritual power level had to be above the fifth layer of the spirit cultivator realm. If one’s aptitude was not good, how would one reach the fifth layer of the spirit cultivator realm before the age of twenty-five? That was the first reason.

The second reason was that the pill’s effect was too heaven-defying. Once it was refined, it would definitely attract heavenly lightning. At the very least, the alchemist’s cultivation would be impaired, and at the very worst, they would be struck to death.

Thirdly, the medicinal herbs required for this pill were all high-grade earth grade, especially one of the Primordial Fruit. It was rarely seen in the world and was hard to find. Therefore, this pill formula was of little value. Although its effects were astonishing, it had no flexibility.

Yun Chujiu rubbed her chin. The first one was easy to handle. Fourth Brother and the others had just broken through to the fifth layer of the spirit cultivator realm a few days ago. Moreover, they usually kept their bodies clean and did not do anything that involved pleasure with the opposite gender. As for senior brother Feng Ming and the other two, it was hard to say. Hehe, she would ask them one day.

The second one was even less of a problem. She could not wait for the heavenly lightning to strike her. She was very willing to be struck, so she welcomed it.

However, the third one was a little difficult to handle. She could collect and obtain other herbs. It was just that the Prince Charming had given her two Primordial Fruits back then, but they had all been eaten by her. If she had known earlier, she would have kept them..
