

The Yun Family's Ninth Child is an Imp! Chapter 919

Elder Qi saw Yun Chujiu's frown and said, "Little girl, this opportunity can be encountered but not sought. Take it slowly. Don't be too anxious."

Yun Chujiu nodded. The two of them exchanged some knowledge on alchemy before Elder Qi bade farewell and left.

Just as Yun Chujiu was frowning, Little Black Bird said from the treetop, "Master, I remember that you buried the core of a Primordial Fruit there. Why don't you dig it out and take a look? What if it sprouts! However, there hasn't been any movement for such a long time. I'm afraid it's going to be tough..."

Before Little Black Bird could finish his words, Yun Chujiu jumped to the corner like a rabbit and took out a small shovel to start searching.

"Strange! Why is it gone? I remember it clearly. I buried it here! Why is it gone? Is it rotten? Has it turned into mud?"

Yun Chujiu turned the courtyard into a mess, but she could not find the core of the Primordial Fruit. She sat on the ground and panted dejectedly.

This guy thought for a while and took out a voice transmission talisman, "Primordial God, do you still have any Primordial Fruits with you?"

"No, I got the two by chance. It is said that the Primordial Fruit tree is very rare and it is hard to find it."

Di Beiming asked Yun Chujiu why she wanted the Primordial Fruit. Yun Chujiu told him the reason. Di Beiming promised Yun Chujiu to send people to look for it but told her not to have too much hope. The chances of finding one were very slim.

Yun Chujiu grew depressed. The pill formula was already a rare find, but she did not expect that she would be forced to give up because of the lack of one of the main ingredients.

However, she quickly adjusted itself and began to gather other materials. Once she found more Primordial Fruits, she could immediately refine the pill.

After gathering all the other materials, Yun Chujiu decided to try her luck. She could also find somewhere to settle the Illusionary Electric Eel along the way.

When the Illusionary Electric Eel heard that the Little Devil was finally going to send it back to the sea, it was so excited that it almost fainted. It had almost given up hope but did not expect the Little Devil to keep her word. Not only did she want to send it back to the sea, but she also refined a restorative pill for it, she wanted to repair its damaged spiritual sense.

Yun Chujiu took the flying spirit tool and rushed to the nearest Sea of Stars. There were many islands in the Sea of Stars, just like the stars in the sky, so it was aptly named the Sea of Stars.

Yun Chujiu thought of Qing Si as soon as she got on the flying spirit tool. Qing Si had saved the lives of the Yun siblings at a critical moment, but she was very secretive about her own life. Seeing that she was unwilling to say more at the time, Yun Chujiu did not ask further. In short, Qing Si's background was probably complicated.

The Prince Charming had said that a flying spirit tool with offensive ability was considered rare in the Tian Yuan Continent. Qing Si's spaceship's offensive ability should be limited in the Azure Mystic Continent. If it were used in the Tian Yuan continent, its power would be even more shocking.

Twenty days later, Yun Chujiu arrived at the Sea of Stars. Just like what was recorded in the books, the islands were densely packed. From afar, it looked like a sky filled with stars against the blue seawater.

Yun Chujiu summoned the merchant ship that she got from the Yongxing Trading Company. After boarding it, she sailed into the sea.

After reaching the deep sea, Yun Chujiu released the Illusionary Electric Eel. "Little Loach, your new home is here."

The Illusionary Electric Eel almost cried when it entered the water. It finally saw the sea again. It was finally free!

The Illusionary Electric Eel bowed to Yun Chujiu then dived into the sea and disappeared.

"Damn! This heartless person left just like that? He should have thanked me for a while before he left!"

While Yun Chujiu was mumbling, she saw the water in front of her churning. The Illusionary Electric Eel had a big silver-white fish in its mouth.
