

The Yun Family's Ninth Child is an Imp! Chapter 932

Wu Yun was almost done, so it stopped.

“Little Wu Yun, you did well. If only all the Wu Yun were as outstanding as you! See you later!” Yun Chujiu waved her hands at the Wu Yun in the sky.

The Wu Yun in the sky turned a pale pink again and bobbed away.

An Feng was speechless. Could it be that in the future, the Ninth Miss would not only take in spirit beasts but also that Wu Yun?!

Yun Chujiu hopped back to the courtyard and counted with her fingers. The Yun siblings, Qing Si, and Feng Ming made a total of nine people. If she gave one more to the Strange Grass, it would be exactly ten pieces.

An Feng heard Yun Chujiu mumbling, and he was extremely disappointed. There was none left for him at all. As expected, older people were discriminated against.

An Feng did not expect that Yun Chujiu would put the five pills from the first batch and some spirit medicinal liquid that could not be refined into pills into the Heaven and Earth Universal furnace again.

“Miss Jiu, what are you doing?”

Yun Chujiu giggled. “Refining it. I’m trying to see if I can salvage it. If I can, I can give one each to Prince Charming, you and An Yin.”

An Feng felt that Yun Chujiu was very loyal, but he was not sure. He had never heard that a failed pill could be refined again. ‘Was this a reliable way to do it?’

Di Beiming and An Yin also felt that it was hopeless. Anyway, they had already succeeded in refining one batch. If she was willing to experiment around with the initial failed one, so be it.

Yun Chujiu was not confident. Her thoughts were the same as Di Beiming and the others. Anyway, it was a waste not to try. Even if she failed, it would not be a pity.

She first dissolved the five pills into a medicinal liquid, then took out a pen and paper to write down some notes. Then, she began to refine.

Yun Chujiu added the medicinal herbs according to the calculated amount. The refining process was much slower than before.

Two hours later, the courtyard began to emit a medicinal fragrance. It was actually even stronger than the previous time.

Di Beiming and the other two were dumbfounded. Could it be that it worked?!

After Yun Chujiu finished refining, she nervously opened the Heaven and Earth Universal furnace's lid. Immediately, a refreshing medicinal fragrance jumped into everyone's nostrils. Just by smelling this smell, it could be determined that the quality of the pills must be better than the previous ones.

The three of them quickly went to the side of the furnace and looked inside. They saw nine round pills lying at the bottom of the furnace. The golden patterns on them were even more eye-catching than the previous ten pills.

"Miss Jiu, something's wrong. Didn't you put five pills in? Why are there now nine pills?" An Feng exclaimed.

“It’s very simple. Didn’t I add more herbs into it? According to the law of conservation of mass, it should have resulted in a few more pills.” Yun Chujiu regretted eating one just now. That way, there would be ten pills.

Yun Chujiu took out one, looked at it, then smelled it. It should be fine, right?!

She threw the pill in his hand into her mouth. Before she could eat it, it was snatched away by the Strange Grass. The Strange Grass was greedy and clamored to eat it.

Yun Chujiu had the principle that if she wanted a cow to work, she had to feed it accordingly. Her heart ached as she fed the Strange Grass another pill. After the Strange Grass finished eating it, it clamored for more, Yun Chujiu rolled her eyes and said, “Don’t worry. I’ll leave two pills for you. I’ll feed them to you when if perform well in the future.”

When the Strange Grass heard Yun Chujiu say this, it could only reluctantly agree.

Yun Chujiu was still worried about the medicinal efficacy of the pill. She was afraid that there was poison in it, so after warning the Strange Grass, she swallowed one herself. After eating it, she only felt that her body had become much lighter. There was no poison or strange side effects, so she felt relieved.
