

The Yun Family's Ninth Child is an Imp! Chapter 940

Yun Chujiu said smugly, "When have I ever let you guys down? However, don't level up too quickly. Stabilize yourselves before you break through."

Yun Chusi and the others nodded repeatedly. The gratitude in their hearts could not be described with words. They had thought that they could only stay in the small Ye City for the rest of their lives. They did not expect that there was a chance for them to ascend now. It was something that they did not even dare to dream about in the past, and all of this was because of Little Jiu.

Qing Si wanted to say something, but she hesitated. The gratitude in her heart towards Yun Chujiu did not need to be expressed. However, her background was special. After thinking for a while, she swallowed the words that were about to come out of her mouth.

Yun Chujiu saw Qing Si's expression and did not ask any further. Everyone had their own private matters. As long as they knew that she did not have any ill intentions, it was fine as long as she was willing to show it. It did not matter even if she did not say anything.

The next day, Feng Ming and the other two also found Yun Chujiu. They were so excited that they were about to go crazy. Although they felt that the speed of their spiritual power absorption had increased after taking the medicine, they did not expect it to be so fast. It was truly shocking.

Yun Chujiu did not reveal an excited expression when she heard the words of the three of them. She said with a serious expression, "Senior brothers, I've thought about it these few days. My previous actions were too reckless. I didn't consider it thoroughly enough.

"Although you can advance very quickly after taking the pills, your foundation isn't solid. Even if it's a heavenly tribulation, I'll help you to endure it. When you reach the Tian Yuan continent, you'll need at least a year to consolidate your foundation. You can't continue to break through.

“When that time comes, you’ll have to endure a period of being despised and criticized by others. Are you mentally prepared? If you feel that you can’t bear it, you can slow down your cultivation speed. I will fly to the Tian Yuan continent alone first!”

These days, Yun Chujiu had been reflecting on this kind of act of pulling out seedlings to encourage growth. She felt that she was a little selfish, so she had to let everyone know

Feng Ming and the other two were stunned. These days, they were immersed in the joy of their soaring spiritual power and did not think too much about it. Now that they heard what Yun Chujiu had to say, they began to consider it carefully.

The three of them were like dragons and phoenixes among men. With a little thought, they understood the hidden meaning behind Yun Chujiu’s words. Although Yun Chujiu helped them as fellow disciples, it was also to her benefit.

If they took the other party’s benefits and then retreated, it would be too disloyal. Moreover, the tempering of one’s temperament was also a part of cultivation. So what if they were to be despised and criticized?! Junior Sister Little Jiu suffered a lot more than them back then. If she could even endure it as a little girl, so could they!

“Junior Sister Little Jiu, we understand your meaning. We have decided to ascend to the Tian Yuan continent with you. The cultivation of the three of us can be said to have been very smooth. We have always been outstanding. It just so happens that we have lost some of the temperings of our temperament. It’s not bad to suffer some hardships when we arrive at the Tian Yuan continent.” Feng Ming said seriously.

Seeing that the three of them did not seem to be forced to speak, Yun Chujiu nodded. “Senior brothers, don’t worry. Although we will be the weakest when we first arrive at the Tian Yuan continent, in less than five years, I will definitely let you reach the top of the Tian Yuan continent.”

If Yun Chujiu said these words three years ago, Feng Ming and the other two would think that there was something wrong with her head. However, after spending three years together and personally

witnessing Yun Chujiu's monstrous growth, the three of them firmly believed in her words. Junior Sister Little Jiu would be able to do it!
