

## The Yun Family's Ninth Child is an Imp! Chapter 944

Damn!

This damned girl was too cunning!

Those three spiritual beasts were on those three people. No matter how good their aim was, it was inevitable that they would miss! Moreover, even if they were aiming at those three people at the beginning, those three could still take the initiative to help get struck by the lightning. What should they do?

Yun Chujiu put her hands on her hips and said proudly, "Hey, Wu Yun in the sky, listen up. If you know what's good for you, just strike me with all your might! Think about it. If I ascend to the Tian Yuan continent, you will be free in the future. Without me, you can regain your former glory. If you provoke me, I will not be able to ascend today. I will end up scolding the old b\*stard Tian Dao every two to three days. When that time comes, I will torture you to death!"

The four Wu Yun in the sky were at a loss. Yun Chujiu's words were too tempting for them. It was because of this scourge that the Wu Yun's reputation as a whole was completely ruined. If she really went to the Tian Yuan Continent, would they be able to rebuild their reputation?

However, if they did as she said, they would be punished when they returned. If they were not careful, they might even be destroyed. What should they do?

At that moment, Yun Chujiu sighed faintly. "Sigh, I know it's not easy for you guys. If the Heavenly Lightning strikes me, I'll definitely be punished when I go back. How about this? I'll give you guys an idea. You can just do it normally. However, when you do it, you have to strike a person with a bolt of Heavenly Lightning and a spiritual pet with a bolt of Heavenly Lightning. Those three are my spiritual pets anyway, so it won't affect the innocents. How about it?"

The four Wu Yun thought about it and felt that it was the only way. Even if they did not agree, it was inevitable that they would not be able to strike their targets accurately. Thus, the four Wu Yun trembled and agreed to Yun Chujiu's suggestion.

Yun Chujiu was very pleased in her heart, 'Little Brats, you still want to fight me? I can easily take care of all of you.'

Thus, the Three Silly Munchkins helped Feng Ming and the others to absorb half of the Heavenly Lightning. Although Feng Ming and the other two were heavily injured, they were still able to hold on.

The four Wu Yun completed their mission and could not wait to float away. They wanted to tell all the Wu Yun that the scourge, Yun Chujiu, was about to leave the Tian Yuan Continent. Their dark days were finally gone for good, and the Little Scourge was finally about to leave, hahaha!

At that moment, a halo appeared in front of Yun Chujiu and the other three. As long as they stepped into the halo, the four of them would be directly teleported to the Tian Yuan Continent. Only ascenders had the opportunity to use such an ascension teleportation array.

Yun Chujiu smiled brightly at the crowd. "Everyone, I'm going to the Tian Yuan continent to terrorize them. Wait for my good news. When the time comes, I'll get some good stuff from the Tian Yuan continent to sell to you!"

The corners of everyone's eyes twitched violently. They initially thought that Yun Chujiu meant to get some good stuff to give to them. They did not expect her to want to "sell" them the goods. This money-grubber! However, even if she wanted to sell them, it was fine. The things in the Tian Yuan continent must be much more advanced than those in the Azure Mystic Continent so it should be worth it.

"Prince Charming, brother Wuji, see you in the Tian Yuan continent!" Yun Chujiu waved her claws at Di Beiming and Xue Wuji. She had already made an agreement with Di Beiming not to announce their relationship in the Tian Yuan continent for the time being to avoid unnecessary trouble, it would be bad if she attracted the attention of a few white lotuses. It would be better to wait until she had a firm footing.

Only then did Yun Chujiu, Feng Ming, and the other two step into the teleportation formation. A white light flashed and the four of them disappeared.

At that moment, Master Xuanyuan frowned, 'Strange. Wasn't there supposed to be a phenomenon after successfully ascending? For example, some immortal music, or flowers blooming. Why was there nothing other than the teleportation formation this time?'
