

## The Yun Family's Ninth Child is an Imp! Chapter 945

Master Xuanyuan shook his head. Perhaps he was thinking too much, or maybe it was because thousands of years had passed, so the rules had changed.

After four hours, Yun Chujiu and the others finally came out of the teleportation array. When they saw the scene in front of them, they were stunned.

They said that after ascending, they would be teleported to Xinyuan City. Why were they in a desert instead?!

Yun Chujiu's heart sank. Di Beiming had already arranged for An Feng to pick them up in Xinyuan City. How did they end up here?

Yun Chujiu took out a sound transmission talisman and wanted to ask Di Beiming what was going on. She did not expect that the sound transmission talisman could not be used.

Yun Chujiu had a bad premonition. She took out the chopping board and tried it. As expected, it could not be used either.

"Junior Sister Little Jiu, didn't you say that after ascending, the injuries on your body from the Lightning Tribulation will heal themselves? Why haven't our injuries recovered?" Feng Ming asked in puzzlement.

Yun Chujiu took out three heaven-grade blood coagulation pills and handed them to Feng Ming and the other two. Then, she said, "I'm afraid that you guys have been implicated by me. It should be Tian Dao who is causing trouble. We can only think of a way to escape this desert by ourselves and then head to Xinyuan City."

After Feng Ming and the other two took the pills, half their injuries instantly recovered. Shi Xuan said with a smile, "Junior sister Little Jiu, what do you mean by 'not being implicated'? The four of us will be friends through life and death in the future. There's no need for such polite words."

“Senior Brother Shi Xuan, I naturally won’t be polite with you. You might be my seventh brother-in-law in the future. Hehe!” Yun Chujiu could always maintain an optimistic attitude. Even if the current situation was so terrible, she could still think of a way to brighten up the atmosphere.

Shi Xuan’s face went slightly red. “Your seventh sister hasn’t given me her word yet. I’ll need Junior Sister Little Jiu’s help in the future.”

“Senior Brother Shi Xuan, don’t worry. My seventh sister has doted on me since I was young. As long as you perform well, I’ll put in a few good words for you.” Yun Chujiu shamelessly ignored her dark history.

Shi Xuan did not know about her history so he believed her. “Then I’ll have to trouble Junior Sister Little Jiu.”

Yun Chujiu was secretly happy. Usually, Shi Xuan was the most astute of the three. She did not expect him to be so foolish when he met her seventh sister.

Just as the four of them were chatting and laughing, they suddenly felt a powerful pressure. Yun Chujiu could endure it, but Feng Ming and the other two felt their chests tighten and they could not breathe.

The four of them looked ahead warily. They saw a huge demonic beast pouncing towards them. Yun Chujiu and the others had a better understanding of the demonic beasts of the Azure Mystic Continent, but they knew nothing about the demonic beasts of the Tian Yuan Continent.

Yun Chujiu and the others had no idea what kind of demonic beast this was. They did not know what level of spiritual power it was, but one thing was for sure, this demonic beast’s spiritual power level was much higher than the four of them.

This demonic beast looked very similar to a wolf, it was probably a type of demonic wolf.

The Demonic Wolf's eyes were filled with greed. It drooled as it looked at Yun Chujiu and the others. In its eyes, these four weaklings were like a free lunch.

"I'll test its strength first. If we can beat it, we'll fight it head-on. If we can't, I'll hold it back. You guys run, then I'll catch up to you," Yun Chujiu said to Feng Ming and the other two in a low voice.

Feng Ming and the other two knew that Yun Chujiu's head was full of bad ideas, and they were used to listening to Yun Chujiu's arrangements, so they simply nodded and did not raise any objections.

Yun Chujiu giggled at the Demonic Wolf.. "Hey, little dog! Can you understand human language?"
