

## The Yun Family's Ninth Child is an Imp! Chapter 981

Yun Chujiu touched her chin. This nightmare beast was actually in the same situation as Brother Merman. It would have been awesome if she had the Divine God Axe at that moment. Unfortunately, even if she could find the Divine God Axe, she did not know where Brother Merman had ended up.

“Curly hair, don’t worry. I will remember this when I get out of here. I will definitely release you in the future. You can stay here in peace for now! Oh right, do you need me to leave some low-level demon beasts for you to play with?”

Nightmare Beast nodded. “Leave anyone to play with me, Demon Beasts are fine too! Right now, I’m so bored that I spend all day practicing with spirit bees and spirit butterflies. It’s a pity that they dream of nothing but nectar. It’s so boring!”

Yun Chujiu retrieved a number of low-level demon beasts from the Great Void Mystic Realm. Those low-level demon beasts were intimidated by Yun Chujiu and the others, and all of them shivered the moment they left the Great Void Mystic Realm.

After Yun Chujiu chased those low-level demonic beasts out of the cave, she said to the Nightmare Beast, “Curly hair, send us out!”

The Nightmare Beast said reluctantly, “Little Fairy, the life of a beast is short. Please don’t make me wait for too long!”

“Don’t worry! Don’t worry! I’m more anxious than you! With such an awesome subordinate like you, I can kill whoever I want. How awesome would that be!” Yun Chujiu waved her little hands and said.

The Nightmare Beast suddenly had a thought, ‘I should just stay here obediently. Why does it feel that if I go out, I will become this little girl’s lackey?!’

“Don’t just stand there, hurry up. If we don’t get out soon, we’ll probably exceed the time limit! If I can’t enter the Tianyuan Academy, how am I going to find the key for your release? Hurry Up!” Yun Chujiu urged impatiently.

The Nightmare Beast regained his senses and quickly formed a seal. The array formation in this forbidden area was a piece of cake for him. However, were it not for the Ten-Thousand-Year-Old Darksteel that held him, he would have left long ago.

A white light flashed in front of Yun Chujiu and the other three. When they opened their eyes again, they were already outside the forbidden area!

“Senior brothers, Let’s wait here! We don’t want to run into other potential troublemakers. You guys look like you still need some rest. You guys can sleep for a while, I’ll be on guard.” Yun Chujiu looked at the sky, it was already the early morning of the fifth day of the first round of the test. In another four hours, they would be automatically teleported out.

Feng Ming and the other two nodded in agreement. Although they had been awakened, their spiritual senses were still a little uncomfortable. Their heads were dizzy, and the three of them began to meditate and rest.

At that moment, on the large display screen outside Tianyuan Academy, the name of group 250 lit up once again. Moreover, their ranking soared to first place. What was even more terrifying was that the amount of Violet Brocade Grass that they had gathered was more than ten times more than the group in second place.

The square instantly exploded with commotion!

‘What was going on?’

‘Could it be that the display screen was broken?’

'How could the group 250 that was clearly already dead be revived? Moreover, it had soared to the first place?! How was this possible?!'

Shopkeeper Qi had heard that Di Beiming was coming today, so he had been waiting in the square for a long time. When he saw what was happening on the display screen, An Feng's words suddenly popped up in his mind. He had said that the little girl would be fine, could it be that the little girl had something special about her? Speaking of which, if there was nothing special about her, his excellency would not have taken a fancy to her.

While everyone discussed what had just happened, the examinees were sent out one after another. The first thing they did was to look at the screen. They were both happy and worried. Those ranked in the top 1,000 were naturally exceptionally happy, but those left behind were extremely disappointed..
