

## The Yun Family's Ninth Child is an Imp! Chapter 992

When Yun Chujiu and the other three opened their eyes, they were already in a sea of water.

Feng Ming and the other two tried their best to get up to the surface of the water, but unfortunately, they discovered a rock wall instead. This place was sealed!

F\*ck! They were going to die!

Could it be over just like that?

Just as the three of them were holding their breaths with ashen faces, Yun Chujiu handed each of them a pure white bead. "Activate this bead, and you will be able to move freely!"

The three of them did not have time to think. They activated the bead in their hands according to the method that Yun Chujiu demonstrated. Then, they miraculously discovered that they could breathe and talk freely just like on land!

Feng Ming cried out in surprise, "Junior Sister Little Jiu, is this a Water Repellant Pearl! This must be the legendary Water Repellant Pearl! Isn't it?"

Yun Chujiu smiled and nodded. "Yes, these are Water Repellant Pearls."

Geng Yi and Shi Xuan were also very surprised. They did not expect Junior Sister Little Jiu to have the fabled Water Repellant Pearl. Junior Sister Little Jiu always surprised them. No wonder she chose the ocean environment!

However, although they could move and breathe freely in the sea, their spiritual power attacks would be greatly weakened in the water. What if they encountered sea beasts? Could they defeat them?

While the three of them were thinking, a sea beast swam in front of them.

These days, the three of them had been revising on the various demonic beasts in the Tianyuan Continent, but they did not pay attention to the information of the sea beasts. Unexpectedly, Yun Chujiu said in a clear voice, "That's a level 14 sea beast, the Ironfin Swordfish. It can shoot water arrows, and its weakness is in its eyes. We will set up a spiritual power shield to deflect its water arrows, and then find an opportunity to target its eyes."

Feng Ming and the other two nodded, but they were still unsure. Although this sea beast was a level lower than them, they were still in its preferred environment. Could they do it?

Just as the three of them were thinking, the Ironfin Swordfish began to attack!

Several water arrows shot towards the four of them. Feng Ming and the other two quickly used a spiritual energy shield to block the attack according to Yun Chujiu's instructions, and then launched their own wind blade attacks toward it.

Unfortunately, they discovered that the wind blades, which were originally fast on land, traveled much slower in the water. The Ironfin Swordfish easily dodged the wind blades from all three of them.

The Ironfin Swordfish spat out a bubble disdainfully, 'These guys are really weak. They dared to challenge me when they are so weak. They are really courting death!' The Ironfin Swordfish launched its second round of attacks, and hundreds of water arrows shot towards the four of them.

After Yun Chujiu dodged the water arrows, she made her move!

As she waved her hands, a few purple lightning bolts slowly swam towards the Ironfin Swordfish.

Feng Ming and the other two almost cried when they saw the lightning bolts traveling at the speed of a turtle!

'Junior Sister Little Jiu, is this still called lightning? It should be called slow lightning! The slow speed doesn't give it lethality at all! Junior Sister Little Nine, you probably didn't expect your lightning to become like this in the water?! Looks like they're going to be eliminated in this round of tests!'

The Ironfin Swordfish also revealed a disdainful expression. This little girl was even worse than those three. Although purple lightning was relatively rare, at that speed, it could dodge it with its eyes closed.

Therefore, the Ironfin Swordfish completely ignored the purple lightning and continued to attack Feng Ming and the other two.

Feng Ming and the other two wanted to cry but they had no tears. It was over. Even if they knew the Ironfin Swordfish's weakness, it was useless. It was already good enough that they were not turned into swiss cheese. They had no way to get close to the Ironfin Swordfish, let alone blind it.
