

The Yun Family's Ninth Child is an Imp! Chapter 994

"Senior brother Feng Ming, the three of you surround and attack the smaller one. I'll deal with the bigger one!" Yun Chujiu whispered to Feng Ming and the other two.

Feng Ming and the other two nodded. Then, they heard Yun Chujiu say to the big Sawtooth Arowana, "You shameless piece of trash! You're just a stinky fish to begin with, and you call yourself an arowana? You're shameless. Do you dare to fight me one-on-one?"

Although the Sawtooth Arowana did not understand the meaning of being a piece of sh*t, it still understood the meaning of being shameless. It was so angry that it opened its bloody mouth and lunged toward Yun Chujiu.

Yun Chujiu pursed her lips and summoned the five immortal swords to attack the Sawtooth Arowana.

When the Sawtooth Arowana saw Yun Chujiu command five immortal swords to attack it at the same time, it was shocked, 'Oh, so this little girl seems to have some real ability after all. Her spiritual sense is so powerful. However, no matter how powerful you are, you will die here today.'

The golden scales of the Sawtooth Arowana were very hard. When the immortal swords stabbed it, they barely made a scratch. The Sawtooth Arowana was very proud. Its body was extremely strong. As long as it protected its eyes, even a high-level cultivator would be unable to do anything to it, let alone a weak chicken.

The Sawtooth Arowana opened its bloody mouth and lunged toward Yun Chujiu again. Its sharp teeth flashed with a cold light. Yun Chujiu quickly dodged, woman fish tangled together in a struggle.

Soon, Yun Chujiu was at a disadvantage. The Sawtooth Arowana felt very proud. It felt that it was only a matter of time before it ate Yun Chujiu, so it let down its guard.

Yun Chujiu suddenly waved her hands and shot out several purple lightning bolts. The purple lightning bolts accelerated and quickly shot toward the Sawtooth Arowana's eyes.

The Sawtooth Arowana still felt arrogant. When it saw the purple lightning bolts coming towards it, it quickly swam aside to avoid them. It did not expect the purple lightning bolts to turn around!

The Sawtooth Arowana had no choice but to keep swimming to avoid them. Although it avoided the eyes, the purple lightning bolts went through the gaps in its scales!

The Sawtooth Arowana felt miserable. Although its scales were very tough, the flesh in the gaps was very fragile. After being struck by the small purple lightning bolts, it was in so much pain that it immediately started rolling.

When it was distracted, the rest of the small lightning bolts struck its eyes. Before the Sawtooth Arowana died, it could not understand why the lightning bolts could change direction. If it was given another chance, it would have left this little demon alone.

Seeing that the Sawtooth Arowana was dead, Yun Chujiu quickly went to support Feng Ming and the other two. At the time, Feng Ming and the other two were already forced to the point that they could not retaliate. Fortunately, they had the protection of their spiritual energy. Otherwise, they would have been swallowed by the Sawtooth Arowana a long time ago.

When the Sawtooth Arowana saw that its companion was dead, it became even more agitated. It stirred up the water in its immediate vicinity in rage.

Yun Chujiu used her immortal sword to distract it while releasing several small purple lightning bolts. It was exactly the same as the Sawtooth Arowana from before. Fifteen minutes later, the Sawtooth Arowana was also dead.

Yun Chujiu put away the corpses of the two Sawtooth Arowana and waved her hands. "Let's keep moving!"

Feng Ming and the other two had already digested the fact that Yun Chujiu was also a demon in the water. They continued to swim forward with Yun Chujiu.

“These two groups are probably the easiest. There must be some powerful big guys behind them. If the situation is not good, you guys can go ahead and leave me while I deal with whatever comes. I’ll have my own way to escape,” Yun Chujiu said to Feng Ming and the other two, as long as all four members reached the end, they would be considered to have passed. Therefore, they could still escape if they could not defeat them.

Feng Ming and the other two nodded in agreement. They were a little nervous. They did not know what kind of sea beast they would encounter next.
