

The Yun Family's Ninth Child is an Imp! Chapter 996

At that moment, in the courtyard where the staff in charge of the test waited, the instructors were leisurely drinking tea and chatting.

"Guess which group will be the first to come out in this round?"

"Group No. 18's strength isn't bad. Moreover, the scene that they chose in the valley has more commonly encountered demon beasts. They should be the first to come out."

"I Think Group No. 32 will be the first. The forest that they chose is very similar to the Demon Beast Forest. They should be able to quickly deal with anything they encounter."

"Why don't any of you think highly of group 250? They took first place in the previous round!" A teacher asked with a smile.

"Forget it! Them placing first in the previous round was probably like a blind cat that met a dead rat. They just happened to find a large patch of Violet Brocade Grass, which is why they took first place. The second round of the test depends on strength. They might give up halfway."

"I heard that they entered the forbidden area? Didn't they say that those who enter the forbidden area will never return? How did those four escape unscathed?"

"It's probably because their spiritual power is too low, so they weren't discovered by the things inside?"

"Right, what exactly is locked inside?"

"I'm not sure either. Only the academy's higher-ups know. In short, it's not something good!"

...

A teacher saw that they were getting more and more off-topic, so he said, "You guys are getting off topic! Let's talk about this test! How long do you think it will take for the first place to come out?"

"There was a similar test before, and the fastest time was 8 to 10 hours. I think it will be dark by the time the first group comes out. This group of people's aptitude is average, I think it will be midnight by the time a group makes it out..."

Before the teacher could finish his sentence, the name of a group appeared on the screen: Group 250 has passed.

The teachers looked at each other. The screen was most likely out of repair. Was it broken? ! How was that possible?! It had only been less than 16 hours, how could they have passed?! Moreover, group 250 had chosen the ocean environment, which was the most difficult to pass. Not to mention 16 hours, even 36 hours might not be enough!

Just as they were stared in disbelief, Yun Chujiu and the other three had been teleported out. Although the four of them were in a sorry state, and there seemed to be bloodstains on Yun Chujiu's calf, they had indeed passed the second round of the test.

"How... How did you pass so quickly?" A teacher asked in disbelief.

"Naturally, we killed those sea beasts and then passed! Do you need me to bring out the corpses of those sea beasts for you to inspect?" Yun Chujiu said with a smile.

"Alright, bring one out, and let us take a look." Although the teacher felt that this was a bit too much, he was too curious and said shamelessly.

Yun Chujiu did not mind. She brought out the corpse of a Sawtooth Arowana and threw it onto the ground with a plop.

The huge corpse immediately occupied half of the floor. Someone exclaimed, "This is a level 15 Sawtooth Arowana. In the sea, it is at least equivalent to a cultivator of the fourth layer of the spirit sect."

Someone noticed that the Sawtooth Arowana's eyes had been charred black, and immediately understood how the Sawtooth Arowana died.

Although these four people's spiritual power was weak, they had found the Sawtooth Arowana's weakness. No wonder they were able to kill it!

"Teachers, our spiritual power is insufficient to supplement our intelligence, but we were still a little slow. May I ask, which rank are we? We haven't been eliminated, right?" Yun Chujiu asked with a worried expression..
